

## *ITC Renewed 17025 Accreditation, Now with A2LA*

ITC ENGINEERING SERVICES, INC., is happy to announce that it has successfully renewed its ISO/IEC 17025: 2005 accreditation, now with the American Association for Laboratory Accreditation — A2LA.

This change has provided ITC the ability to further broaden its scope of accredited test methods into new areas of technology as we look forward to a year of expanded collaboration with new and old customers and vendors.

ITC has a long-established history of 17025 accredited work, and we are proud of our dedication to always striving for high standards of quality and excellence.

## *Peace, Prosperity and Productivity in 2013*

ITC, along with many companies, has persevered in recent years in the face of challenging economic dynamics.

With the advent of a New Year, our hopes and goals are for a renewed peace everywhere, and for prosperity and continued productivity for and with our customers in 2013.

To this end, ITC has been upgrading its facilities and looking to new avenues in technology with which to

remain open, communicative and transparent with our customers and vendors.

*We invite you to tour our facilities. We will be glad to set a mutually agreeable date and time.*
